

Beginning a Framework for eGovernment research

Tuesday, 24 October 2006

**Representació de la Comissió Europea a Barcelona
Passeig de Gràcia 9008008 Barcelona**

The aim of EU sponsored eGOVERNET project is to support the creation of national eGovernment RTD programmes and initiatives, as well as to stimulate the cooperation of and learning from existing national eGovernment R&D programmes.

The objective of this workshop is to

- discover the variations of eGovernment research programmes throughout Europe
- create a discussion forum on eGovernment research strategy and programmes
- present findings to date from the eGOVERNET project

The workshop programme includes presentations of both project findings and suggested framework inputs with an aim to stimulate discussion and provide an interdisciplinary approach to the project work.

A report on the findings of the workshop will be published on the eGOVERNET website (www.egovernet.org), once these have been validated in the project.
