eGOVERNET

European eGovernment Research Network

Coordination Action in the IST programme of FP6 co-funded by the CEC (IST-2004-026575)

Coordinator: VINNOVA – Swedish Governmental Agency for Innovation Systems

FOCUS: eGovernment Research Management in Europe
Project period: January 1, 2006 – December 31, 2007
eGOVERNET

European Invisible Area Network
eGovernment research in Europe

- Lacks visibility
- Funding mechanisms are fragmented
- National research policies are not coordinated
- Research area is not an established area
Vision

To coordinate research policies and work towards a long-term trans-national strategy for eGovernment research in Europe
The Consortium

RESEARCH FUNDING AND INNOVATION AGENCIES
- VINNOVA – Swedish Governmental Agency for Innovation Systems
- Research Council of Norway
- Academy of Sciences of the Czech Republic

MINISTRIES
- Polish Ministry of Interior and Administration
- Slovenian Ministry for Higher Education, Science and Technology

GOVERNMENT UNITS AND COMMITTEES
- Information Society Development Committee, Government of Lithuania
- Information Society Policy Division, Department of the Taoiseach

NATIONAL CENTRES AND RESEARCH INSTITUTES
- Centro Nazionale per l’Informatica nella Pubblica Amministrazione
- Institute for Prospective Technological Studies
eGOVERNET

- Nov work shop Vilnius, Lithuania
Reports on www.egovernet.org

- Use of eGOV research
- Measuring eGOV research and its impact
- Needs Analysis

- European Egov Research Overview incl Gap Analysis – new in May
FINDINGS: 3 types of e-government research programmes

- DED. dedicated eGovernment research programmes;
- EXPL. eGovernment research as one explicit priority in a wider programme for IST R&D or eGovernment implementation;
- POT. eGovernment as one potential application field of other R&D programmes which may concern generic technologies and applications, methodologies and so on.
Thank you!
